

# RESEARCH STUDY AT THE UNIVERSITY OF MINNESOTA FOR PATIENTS WITH PAINFUL DIABETIC NEUROPATHY

The University of Minnesota is conducting a study to determine whether an investigational treatment is safe and effective in patients with painful diabetic peripheral neuropathy (DPN).

You may be eligible for this study if:

- you have a diagnosis of painful diabetic peripheral neuropathy in both of your lower legs or both feet
- you are age 18 – 75
- your diabetes (Type I or Type II) is under control with medication (A1c less than or equal to 10%)

If you are interested in learning more about this study, please contact the Clinical Neuroscience Research Unit at 612.624.7745 or [cnru@umn.edu](mailto:cnru@umn.edu)

Additional information will be provided when you call the above number.
